Arbela Curbside Pickup

Keep your business up-and-running; keep staff and customers safe

Restaurants, retailers, and other businesses that depend on in-person customer service have been some of the hardest hit by COVID-19.

But there's help available through Arbela Curbside Pickup, built with Microsoft Power App.

One of many tools Arbela is offering to help businesses in all markets continue moving forward during — and after — this unprecedented age of COVID-19, the Curbside Pickup app supports customer and staff safety while improving customer service.

Fully integrated with the Microsoft stack, the Curbside Pickup Power App can:

- Streamline order pickup and improve order accuracy
- Enable true contactless pickup
- Utilize on Kiosks for instore pickup

A solutions partner for unpredictable times

It's not just retailers and restaurants: manufacturing plants, warehousing facilities, supply chains — most every aspect of every business has been impacted by the pandemic. And Arbela is responding with a host of solutions and services.

In addition to the Curbside Pickup app, we're offering Safe Screen, an IoT and AI

Benefits

- Improved customer service
- Integrated with your backend ERP

Features

- Order Management queue
- Pick, pack place capabilities
- SMS for order ready notifications
- Omni-channel options for customer pick-up
- Ability to capture pictures
- Email notification for order pick-up

fueled COVID-symptoms detection and notification solution that can help screen staff and visitors for signs of COVID, and alert stakeholders.

We've also created the Demand Impact Assessment Application (fueled by Power BI) to deliver actionable data on accounts, vendors, territories and business segments impacted by the coronavirus.

Contact us at info@arbelatech.com for more information or a demonstration of Arbela Curbside Pickup, Safe Screen, and other solutions and services we can deliver or build to help your business navigate the New Normal.
